Nakatane Town	Nakatane Town	Nakatane Town

Nakatane Town is situated in the central part of Tanegashima Island located approximately 40 km south of mainland Kagoshima. It is an agriculture and cattle breeding oriented town. Tanegashima is known for the introduction to Japan of matchlock guns and rocket launching facilities. In recent years, it has become known as the sort of surfing mecca that is also filled with abundant nature. In terms of cultural influence, the town is a popular destination, considered worthy of "pilgrimage to the Holy Land" to visit the real-location sites of popular animation and manga such as "5 centimeters per second", "Robotics;Notes" and "Ghost in August".

Nakatane, Tanegashima

"5 centimeters per second" is a Japanese animation film released in 2007. This film won the "Best Animated Feature Film" Award at the Asia Pacific Film Festival 2007 and several other awards. The film consists of three short stories: "Okasho", "Cosmonaut" and "5 centimeters per second". In the second story, Nakatane Town of Tanegashima is used as a location site. The theme of the film is "How fast do I have to live to be able to see you again?"

Following the "Chaos;Head Noah" and "Steins;Gate", this is the third piece of the "Scientific Adventure Series" planned by the collaborative work of 5pb Co., Ltd and Nitroplus Co., Ltd. After it was released on June 28, 2012 by Xbox and PS3, it was animated by Fuji TV network in October, 2012. The story is set in Tanegashima. While the high school robotics club students of a local high school are creating robots with an aim to exhibit them in the World Expo, they become involved in a conspiracy. The story reveals how they solve the problem. "It is not the heroes but otaku nerds that save the world."

Tanegashiman is a community-based group of characters who mainly perform on Tanegashima. Through their performances they tackle the issues that people living on remote islands face such as the ageing problem and youth leaving their hometown. The Tanegashima Action Club was awarded a special award of the First Community Recovery Award in February 2011. "You are going to witness new miracles and legends..."

For the science, it may be negative.
However, do not forget the thing that there is a scientific side in all the art.
The important way is to...
of how the role of life, and who also the commander of my soul.
